

Analyte	Type of assay	Conditions
<b>Lipids</b>		
Cholesterol	Colorimetric end-point	serum
Cholesterol-ester	Colorimetric end-point	serum
HDL-cholesterol	Colorimetric end-point	citrate plasma, serum
Phospholipids	Colorimetric end-point	heparin plasma, serum
Triglycerides	Colorimetric end-point	plasma, serum
Free fatty acid	Colorimetric end-point	heparin plasma, serum
MDA-TBARS	Colorimetric end-point	plasma, serum, urine
Peroxides	Colorimetric end-point	plasma, serum
apo A-I	EIA	plasma, serum
apo A-II	EIA	plasma, serum, cell supernatant, urine
apo B-100	EIA	plasma, serum
Lp(a)	EIA	citrate plasma, serum, cell supernatant
$\alpha$ 1-Glycoprotein	EIA	plasma, serum, cell supernatant
Albumin	Colorimetric end-point	serum
IgG	EIA	plasma, serum
apo E	EIA	citrate plasma, serum, cell supernatant

NOT FINDING WHAT YOU'RE LOOKING FOR?

There might be assays not listed in this catalogue. This is because we are constantly improving our capabilities and validate new protocols and assays, which are not enlisted here. We encourage you to contact us at [info@gsbleiden.nl](mailto:info@gsbleiden.nl) for more information.
