

Analyte	Type of assay	Conditions
<b>Immune</b>		
IL-1 $\beta$	multiplex	plasma, serum, urine, cell supernatants
IL-2	multiplex	plasma, serum, urine, cell supernatants
IL-4	multiplex	plasma, serum, urine, cell supernatants
IL-6	multiplex	plasma, serum, urine, cell supernatants
IL-8	multiplex	plasma, serum, urine, cell supernatants
IL-10	multiplex	plasma, serum, urine, cell supernatants
IL-12p40	multiplex	plasma, serum, urine, cell supernatants
IL-12p70	multiplex	plasma, serum, urine, cell supernatants
IL-18	EIA	plasma, serum, urine, cell supernatants
IL-23	EIA	plasma, serum, urine, cell supernatants
TNF $\alpha$	multiplex	plasma, serum, urine, cell supernatants
IFN $\gamma$	multiplex	plasma, serum, urine, cell supernatants
CXCL10	multiplex	plasma, serum, urine, cell supernatants
B-defensin	EIA	plasma, serum, urine, cell supernatants
CD40L	EIA	plasma, serum, urine, cell supernatants
s-PLA2	EIA	plasma, serum, urine, cell supernatants
CRP	EIA	plasma, serum, urine, cell supernatants
INF- $\alpha$	EIA	plasma, serum, urine, cell supernatants
INF- $\beta$	EIA	plasma, serum, urine, cell supernatants
INF- $\gamma$	EIA	plasma, serum, urine, cell supernatants
IgG	EIA	plasma, serum, urine, cell supernatants
IgM	EIA	plasma, serum, urine, cell supernatants
IgA	EIA	plasma, serum, urine, cell supernatants
IgE	EIA	plasma, serum, urine, cell supernatants
CXCR4	EIA	plasma, serum, urine, cell supernatants

Multiplex analysis are performed on MESO QuickPlex SQ 120.  
Please inquire at [info@gsbleiden.nl](mailto:info@gsbleiden.nl) if your analyte of interest is not enlisted here.
